Welcome to Love City Population Two

It isn't a big place, our little town  
But it's filled with lovely sights all around  
A park filled with flowers, a beautiful lawn

The streets of the driveway that leads to our home  
Just a small house on an acre of ground  
We call it Love City, our little town

Welcome to Love City Population Two  
Founded on a little love that just grew and grew  
Between me and you

We built our home on love's avenue  
The taxes are low and it has a nice view  
We've got home, cooked meals that are fit for a king

And all kinds of love to fill every dream  
A room just for friends if they happen to
