(Woody Hill - Ina Hill - Kenny Roberts)

Takin' chances must be your trade
'Cause you're the best you're tailor made
I thought you'd change but it's no use
So I'll take my chance and turn you loose.

The day we met you took a chance
You left another for our romance
You swore that always you would be mine, baby
You're takin' chances all the time.

--- Instrumental ---

You go out slippin' each night until late
Come in and swear you ain't had no date
Just save your breath I know you're lyin', baby
You're takin' chances all the time.

--- Instrumental ---

When we're out dancin' you keep makin' eyes
Over my shoulder at all the guys
And if I scold you you say I'm blind, baby
You're takin' chances all the time.

--- Instrumental ---

Now takin' chances must be your trade
'Cause you're the best you're tailor made
I thought you'd change but it's no use
So I'll take my chance and turn you loose.

The day we met you took a chance
You left another for our romance
You swore that always you would be mine, baby
You're takin' chances all the time...
