Right behind my left eye is a hurtin' thumpin' sound  
And the bottom part of the back of my head is spinnin'  
around and around  
I've been town down yes I've been town down  
Well I've looked all around this shaky room my woman  
can't be found  
There's a little bitty bee in my stomach buzzin' around  
and around  
I've been tore down yes I've been torn down  
Too many good good buddies too many bad bad gals  
Too many bright lights in this town and the sparklin'  
wine  
Has done and tore me down  
[ steel ]  
Well I felt like Famous Amos last night out makin' the  
rounds  
I had a drink with everyone I know and I know  
everybody in town  
Now I've been tore down yes I've been torn down  
Too many good good buddies...
