We've been a searchin' for the love that lost its feeling
That one time filled our hearts with fire with love
revealing
We thought that love had gone never more to be
returning
And the fire that we thought had gone out again is
brightly burning
Oh we found it oh we found it yes we found it yeah we
found it
Joy to love joy to love we found it
And the lights are way down low the fire of love is high
We found it yes we found it oh we found it oh we found
it
Sweet love you and I
[steel]
Well I never seen a lovelight shine so bright no wonder
we found it
Shining like a neon light with love all around it
It's nights like this with love's sweet bliss sprinkled all
around it
We cried a while but now we smiled hmm hmm we
found it
Oh we found it...
Oh we found it...
