I want to love you and always be with you  
Share all life's pleasures and heartaches with you  
And I want you to love me and need me and want me  
And I want to share my love with you  
With you with you I want to be with you  
Make every plan and dream each dream with you  
And I want to help you comfort and love you I want to  
always be with you  
[ piano ]  
And when I'm with you things hold more meaning  
Familiar old ove songs and stories seem new  
I'm complete since I found you I've built my world  
around you  
A world that I want to share with you  
With you with you...  
With you with you I want to be with you
