(VERSE 1)

They say you only get one time to live this life,
Not I, I will return at least several times.
Each visit I will see things through several eyes,
And each visit I will see through the several lies.
Break free from the format installed society rules,
They can't stop me from showing my balls.
This is the school of hard knocks even a baller can fall,
Even when you think your on top you could lose it all.
Scream and shout living hell turns you out!
You can't see beyond what the media puts out,
And it seems all lovely when your in the money -
You have spare cash so you spend it on your honey.
And if you need a helping hand,
Who's got your back man?
Helping hand's decide to bite the hand that feed them,
You hand that clothed and seeded them,
Open up the eyes lighted and guided them.
Surrounded by the walking dead,
Lost souls with an empty head broke hearts with empty
beds,
Makes no sense because they all see red,
And they never see
Never ever till they wanna be free.
And so we roll
Straight real till my heart grows cold.
Been to long many lies been told.
Now's the time free your mind -
Or your spirit will die
See it through the eye or get marked like boom bye
bye!
See you later alligator
See you later alligator
The light sides greater.

I'm walking like a warrior,
Don't put me down as a worrier.
I'm a go getter and I'm getting what I needed
Spits rhymes to please them
If your feeling this throw your hands up geese' then
This is what it is two fingers going up to the biz,
Straight vibes and I don't need a hit to get live and

(VERSE 2)

Listen to the voice with it speaks quietly,
Born alone and so my shadow walks beside me.
Find me, anywhere the vibes real lively,
Positivity each and every do you feel me?
Straight cold, you know this vibes on a roll,
Dyer on a go hitting you up wit the know.
Dyer getting ready and I'm hitting all angles,
Step up in the place and I'm looking span-dangle.
Can you handle?
Ghetto queen ghetto fabulous
Merked fellas on the reala'
And that scandalist
Beats bass yo I'm armed like bush!
Armed and dangerous
Haters just don't push me.
If you get it twisted we can raise this shit up to another
level can you roll ragga step?
Ready when your ready for you frame to get checked
Buss one two who are you?
Do you self rep?
Are you true to yourself does your life make sense?
Living in color you know this vibes got zest,
Do you live to make choices or changes?
Are you stepping in those shoes all places?
Check the word you know you herd it hear first,
Dyer and Khem just hitting you up with the verse
This is how we do straight till your mind gets (explosion
sample)

Do you feel me?
Are you true to yourself?
Check the word you know you herd it here first!
