Just close your eyes
Pray for me
Why your turn back
Buried my bed

Scream out loud and bleeding
My heart turns black

The darkness inside my head
Bring the diet coke

(CHORUS)

Crush my heart until over and over again
Suicide with all my blood on your face
Step in my soul bring tears in my head gone again
(Step in, my soul, bring tears, in my head gone again)
Hope you hear what I'm sang

Owwwwwwwwww
I break you down now
The present you had found
In the grave of fire, hell light like a water

(CHORUS)

Crush my heart until over and over again
Suicide with all my blood on your face
Step in my soul bring tears, in my head gone again
(Step in, my soul, bring tears, in my head gone again)
Hope you hear what I'm sang

Trust And Believe
(Say it loud it)

(And yet I'm back, beg for you
Even it's late, sorry for the past
I'm promise this is the last)
I'm alone, without you
Please save me
