Heaven's holy water gift of God
Carrying the lost souls, eclipse the sun
Angel tears, winter tears dying tears
Cloud's daughter

Sweet rain, transcending human moods
Adore on feared forever glorified
Please descent, join us in the rain dance
Here is an homage to the rain

Follow us through
The rain dance

Sorrow reflection
Majesty of this wet violence
Annonces universal culpability
Symbol of melancholy
Victorious on fire
Travelling among the earth
Condamning or purifying
Punishment and salvation

Sweet rain, transcending human moods
Adore on feared forever glorified
Please descent, join us in the rain dance
Here is an homage to the rain

Follow us through
The rain dance
