Ohh.....

Can anybody see the light?  
Where the moon meets the dew and the tide rises  
Did you realize, no one can see inside your view  
Did you realize, the world and sun belongs to you

Ohh.....

To set aside your fears of life  
With this sole desire

Done it warning  
Done it now  
And it ain't real  
On this side

Done it warning  
Done it now  
And it ain't real

On this side

[INSTRUMENTAL]

Done it warning  
Done it now  
And it ain't real

Done it waring  
Done it now  
Cuz this ain't real  
On this side

Ohh.....

Can anybody see the light  
Were the moon meets the dew and the tide rises  
Did you realize, no one can see inside your view  
Did you realize, forewhy the sun belongs to you
