"Bloodish Eyes"

Oh, you're drowning
Drowning in your filthy times
You're expecting answers
That you'll never find

Run, run and hide
Cover yourself with lies
Run and die
Stare at my red bloodish eyes
Bloodish eyes

Now you're crawling
Crying for you empty lives
I am the fallen angel
Your blackened foe now rises

Run, run and hide
Cover yourself with lies
Run and die
Stare at my red bloodish eyes
Bloodish eyes

[Lead: Vilela]

I'll save you from oblivion
Come closer and taste my vision
You can be dead or be mine
To find you is just a matter of time

Run, run and hide
Cover yourselves with lies
Run and die
Stare at my red bloodish eyes
Bloodish eyes
