Go  
Don't give up light  
Just one second and it will not be here  
Don't give up light  
Don't leave it alone  
For your duties can wait  
And the time is at run

Close your eyes, them all at once  
The useless in you won't be, no more  
Whisper to yourself with all of your throats  
Caress gently the fleeing air full of lies

You burn today in a helium haven  
Inexistent, without mass, just a solid field

Drink the wine that disappears  
Like a fish into the core of you, soulless spirit  
Look the streets, they don't exist  
The working mobs are nothing but wish - feel

Made of timeless work of art  
Your body lives more than time itself  
Hopelessly infinite

So let yourself go  
Don't give up light  
Just one second and it will not be here  
Don't give up light  
Don't leave it alone  
For your duties can wait  
And the time is at run

I think I can't believe  
The minor part of me is my actual be  
Hide from your soul  
It'll find you as it exist as much as you

[Lead: Vilela]

Open your mind, a bit at a time

Broad your thoughts and spread it out like dye

Even so you'll die

Just one second and will not be here

Reach as high as your arms can go

Even if you'll just scratch your grave
