My body's a temple
Pure as the driven snow
'Til the needle pierces flesh,
Enters beneath the skin
It retracts from the skin
And then it punctures again
Rise,
Puncture,
Rise,
Puncture
The needle
It makes me feel so good
No pain from this needle
This needle means happiness

The blood smears my flesh
It's wiped away
So the needle can help me
Each trip lasts forever
In my brain
Scar me needle
Pierce me
I want you with me always
Scar my brain
Until my head is clear
I want you with me always
