Alright

We were just a pair of dice when I let you in
And the numbers were aligned as the wheel grinned
And the center of your eyes was a lucid lake
And the little trust I gave was a big mistake

It's a daily mutilation as I walk along with you
A daily mutilation and a bludgeoning review
A daily mutilation and I'd like to see it through
But a daily mutilation, a daily mutilation just won't do

And the water doesn't work and the pipes are iced
And the bread is full of holes and it's never sliced
And your kindly downward stares live in a weather vane
And the wind would like to know who's gonna cut the vein

It is a daily mutilation as I walk along with you
A daily mutilation and a bludgeoning review
A daily mutilation and I'd like to see it through
But a daily mutilation, a daily mutilation just won't do

Extra, extra, bleed all about it
Extra, extra, bleed all about
Extra, extra, bleed all about it
Bleed all about it, bleed all about it
Bleed all about it, bleed all about it

And the water doesn't work and the pipes are iced
And the bread is full of holes and it's never sliced

It's a daily mutilation as I walk along with you
A daily mutilation and a bludgeoning review
A daily mutilation and I'd like to see it through
But a daily mutilation, a daily mutilation
A daily mutilation just won't do

Won't do, won't do, won't do, won't do
Won't do, won't do, won't do, won't do
