Sacred pictures  
With which she will foretell her future  
Expert witness  
A wound that won't believe in sutures

'Cause she's earlier than expected  
A little premature Madonna  
Earlier than expected

Rush right home now  
Prepare, prevent, defend, define now  
With no examples  
You'll find the burdens more than ample

'Cause she's earlier than expected  
A little premature Madonna  
Earlier than expected

And if you saw her trails  
Would you consider her guilty  
[Incomprehensible]

Open mouth-faced  
She saw Ulysess, claimed him captive  
The vanquished embraced  
He knew for this to be receptive

And he must have grace and be festive  
Of freeze in the dirt which he rests in

'Cause she's earlier than expected  
A little premature Madonna  
Earlier than expected

She's earlier than expected  
A little premature Madonna  
Earlier than expected

And she will sleep and rest her brow  
And face the tempest of tomorrow
