Golden blunders come in pairs they're very unaware  
What they know is what they've seen  
Education wasn't fun, but now that school is done  
Higher learning's just begun

You're gonna watch what you say for a long time  
You're gonna suffer the guilt forever  
You're gonna get in the way at the wrong time  
You're gonna mess up things you thought you would  
never

Disappointment breeds contempt, it make you feel  
inept  
Never thought you'd feel alone at home  
His and her's forevermore, throw your freedom out of  
the door  
Before you find out what it's for

You're gonna watch what you say for a long time  
You're gonna suffer the guilt forever  
You're gonna get in the way at the wrong time  
You're gonna mess up things you thought you would  
never

Four weeks seemed like a long time then  
But nine months is longer now  
And even if you never speak again  
You've already made the wedding vow

You're gonna watch what you say for a long time  
You're gonna suffer the guilt forever  
You're gonna get in the way at the wrong time  
You're gonna mess up things you thought you would  
never

Honeymoons will never start, bonds will blow apart  
Just as fast as they were made  
Men and women please beware, don't pretend you care  
Nothing lasts when nothing's there

You're gonna watch what you say for a long time  
You're gonna suffer the guilt forever

You're gonna get in the way at the wrong time  
You're gonna mess up things you thought you would  
never
