

## Posies "So Caroline"

I can't make another history choice  
I don't wanna decide  
I don't wanna get stuck where the yearbooks reside

So Caroline, you'll be the only friend of mine  
Close enough to remain tethered and tied  
So Caroline, you'll be the only friend of mine

I keep dreaming of a map of the world  
I keep searching the sky  
I keep seeing the traffic signals passing me by

So Caroline, you'll be the only friend of mine  
Close enough to remain tethered and tied  
Ain't it so Caroline? You'll be the only friend of mine

And with friends like you who needs anyone else?  
With friends like you

Took a second glance like a fighting chance  
When I heard your name  
Such a singular favor to return then begin again

So Caroline, you'll be the only friend of mine  
Close enough to remain tethered and tied  
So Caroline, you'll be the only friend of mine

Ain't it so Caroline? You'll be the only friend of mine  
Close enough to remain tethered and tied  
Ain't it so Caroline? You'll be the only friend of mine
