Summer Christmas in my town  
Everybody looks around  
Love, heat and peace  
Are gathering

There is no white snow in the street  
Santa's ride waves at the beach  
And you warm up  
My scenery

When the sun goes down I'll go downtown  
Meet with you under shining houses  
Hey Santa skips me cause I already got  
My wish come true tonight

When I'm with you everything is love song  
And I don't need to be under mistletoe  
To get that sparkle to kiss  
Cause you look so beautiful  
And I can't resist you

Jingle bell time, fireworks from the sea  
Such a unique scene you can watch next to me  
Listening the sound of the ocean  
Reindeer fly thru skies, sing along tonight

Tchu tchu thcu thcuuu tchurup thchu tchu tchu...

Santa's roast a barbecue on yard  
While I drift into my memories heart  
The perfect moment to remember  
Those good times

So many people rushing chrisie gifts  
While I'm counting minutes just to feel your kiss  
There is nothing else I think  
I could wish

When the sun goes down I'll go downtown  
Meet with you under shining houses  
Hey Santa skips me cause I already got

My wish come true tonight

When I'm with you everything is love song  
And I don't need to be under mistletoe  
To get that sparkle to kiss  
Cause you look so beautiful  
And I can't resist you

Jingle bell time, fireworks from the sea  
Such a unique scene you can watch next to me  
Listening the sound of the ocean  
Reindeer fly thru skies, sing along tonight

Tchu tchu thcu thcuuu tchurup thchu tchu tchu...  
Sing along tonight

Tonight... tonight... tonight... tonight...
