Coo coo ca choo baby you that's what you are  
You are a hollywood star you're the high priestess by  
far  
And you know this tune's for you we call it coo coo ca  
choo  
And it's a very brief description of the things we could  
do to you

You were looking at me I was looking at you  
Coo coo ca choo coo coo ca choo  
You were looking at me I was looking at you  
Coo coo ca choo now what ya gonna do

Oil me up quick miss daisy before I'm lubing up your  
tailpipe  
Or the bedposts will be a knocking and a knocking 'til  
the break of light  
Raised and dazed in a million and one ways  
Like a Morton coffee roll I want you hot and glazed  
So you're the real thing baby you're Parkay you're not  
butter  
Gonna have to get you home and lube you up with fluff-  
n-nutter  
Scope it scope it baby looking so fit  
Playing games and laying dames you know I know you  
know it  
Now you're quick to get the condom you know the  
Jimmy's gonna fit you snug  
Lean you against the fire place and ride you on the  
bear skin rug  
Chow down my Ding Dong come and sing along  
Slip a grip around my tip and then you'll be my Klingon  
Yeah in my sweat pants you're gonna see my erection  
Ooh oh pick a de pop pop perfection  
Umpla dumpla dippedee do  
Cause I'd never leave the house if mommy looked like  
you

You were looking at me I was looking at you  
Coo coo ca choo coo coo ca choo  
You were looking at me I was looking at you

Coo coo ca choo now what ya gonna do

Butter up butter cup did ya think it'd really last long  
My attention span hitches when you wake up know that  
I'll be gone

Cocoa butter beach blonde wearing that thin thong  
You know I got a thing for you it's only an inch long  
Now I'm picking up your signals like a TV station  
I'm looking for the channel to have immoral  
applications

Looking so fine Cosmo behind  
Fermentation of time like Reunite wine  
Well I'm bubbling up and steaming like an active  
volcano

I think I clogged up all your pipes better get yourself  
some Drano

I get annoyed cause I can't avoid  
Baby sounding like a mongoloid  
I got the skills to keep ya busy all night  
If you do not bite I hope you blow like dynamite  
Happy thanksgiving would you like a little white meat?  
I'll stuff my Butterballs and you eat

You were looking at me I was looking at you  
Coo coo ca choo coo coo ca choo  
You were looking at me I was looking at you  
Coo coo ca choo now what ya gonna do
