I know you're gonna blame me when you get wind  
I heard you're full of shit so i've been duped again  
But if you cover your ass with the same old song  
You might as well be farting farting with a walkman on

I know you're gonna blame me when you get wind  
I heard you're full of shit so i've been duped again  
But if you cover your ass with the same old song  
You might as well be farting farting with a walkman on

I know you're gonna blame me when you get wind  
I heard you're full of shit so i've been duped again  
But if you cover your ass with the same old song  
You might as well be farting farting with a walkman on

Give me a fuckin' break
