(VERSE 1)

As I enter this room, I can't here your voices anymore  
The footsteps of ur shadows  
Walkin out of this door

Once again I hold it back  
The pain I control  
Hurting you day n night  
Is the blame I enroll

But If you could open your eyes  
You would see it so clear  
The tryst is not over  
N You will still find me here

With you I felt so close  
To the heaven that I chose  
But then you gotta leave  
N that's the way how it goes

So I sit here  
Surrounded by dead memories  
All these lost chapters  
That keeps on yelling out all my stories

For time when you said  
It was hard to live without me  
Though you might have felt a  
Little less than all what I feel

Now this is the life I chose  
I don't want to see how it goes  
Now I feel pleasure in pain  
I'm turning into a black rose

For the special dates on which  
I miss you the most  
So close to it, we were there almost  
But now it's time to break into woes  
(Its time t let it go...)

(HOOK)

To find a way, when I close my eyes  
As the darkness falls all I see is you inside  
Every day & night, all I do is pray  
Counting all my blessing for the same, for the empty  
space  
For you I keep dreaming day & night

(VERSE 2)

2 years, 330 days  
I can't even count... I missed u in different ways  
Made you feel down and out

So I look the other way  
Cuz I can't see you cry  
But I kept standing there  
Waiting for "you" to say goodbye

When You held my hand, from then  
I thought I was With you  
Constantly keeps on reminding me  
Of best that was true

But this all what my destiny got me to  
Form my pursuit  
As I craved for more  
I slipped into the blue

Now I'm writing all these vivid expressions of my  
thoughts  
I'm tired with against all the wrongs that I fought

No need, No demands, no desire now I got  
Except the one that I had, from the time that I bought

Like when we were in that lift  
The acidic pool of love  
But the incomplete legacy has swirled my world

Now I don't know what to say & how to react to your  
words  
I'm like standing against a trigger, I feel so absurd

(BRIDGE)

Everything that remains is now for the namesake  
Living with what it is, now is the only way

It's better to be so far away  
Rather than ending up in a fight  
So I've decided to keep quite  
& for you no more I can write
