Here I am to do what I want to do
Cause there may be no tomorrow
Life's too short, will say what I wanna say?
As I feel I'm growing old
Just to die alone

Day by day we are closer to the end
And then the time will come to say good bye my friend

What did I see, what have I done?
Is this the last time I see the sun?
Condemned to die when I close my eyes

The way you live, the way you die
I'm still alive so don't you cry
As I am leaving the moment of life

Mike

Higher
I don't close my eyes
Desire
For a moment of life

What did I see, what have I done?
Is this the last time I see the sun?
Condemned to die when I close my eyes

The way you live, the way you die
I'm still alive so don't you cry
As I am leaving the moment of life

What did I see, what have I done?
Is this the last time I see the sun?
Condemned to die when I close my eyes

The way you live, the way you die
Death is not the end so don't you cry
As I am leaving the moment of life
