### "Stay"

I'm taking off this party hat  
The white situation is over  
A new situation begins  
Red guitar is broken  
To beat the drum of youth again  
Take too long to say

Stay, stay, stay and I will understand you  
Stay, I will understand you

I write a new book everyday  
The love theme for the wilderness  
I fit the words together  
Candy girls want candy boxes  
She loves the musicbox forever  
She's crying on my shoulder

Stay, stay, stay and I will understand you  
Yeah, yeah, yeah, I will understand you

Summer girls in disarray  
Can be so free and easy now  
Well, we'll be free and easy

Stay, stay, stay and I will understand you  
Stay, I will understand you

I write a new book everyday  
A love theme for the wilderness  
A love theme

Stay (repeat until fade)
