[Music - MT Lyrics - JB]

Death has beckoned you to hell  
You can't escape my evil spell  
Past the gates, evil fate

Into the depths cast to burn  
Unseen terror life of doom  
Tragic, black magic

Sorrow in your afterlife  
Victim of your sins tonight  
My grasp will last

Nightmares of eternity  
Forgotten souls and tyranny  
You lived, now die

No life no death no future here  
Infinite horror screams of fear  
Your flesh, decayed

Run and hide there's no relief  
Pounding hearts is full of grief  
Screams, dreams

No one hears you scream at night  
Demons own your soul with might  
Illusions, delusions

Roasted in the flames of hell  
Beware the cast the evil spell  
Burning, yearning

Dreams become reality  
You can't outlive infinity  
Burning in Hell

[Solos: Mike, Larry]

Prowling through the night  
Like a bad dream

Stalking out your prey  
Hear the victims scream

Driven by the vision  
Ruling your domain  
Lurking in the shadows  
Driving you insane

Know that you're not crazy  
Nothing you remember  
Mind is so blank  
And your thoughts become a hinder

Know there's something evil  
Hiding in your mind  
Waiting for the moment  
To sneak up from behind

Death has beckoned you to hell  
You can't escape my evil spell  
Past the gates, evil fate

Into the depths cast to burn  
Unseen terror life of doom  
Tragic, black magic

Sorrow in your afterlife  
Victim of your sins tonight  
My grasp will last

Nightmares of eternity  
Forgotten souls and tyranny  
You lived, now die

No life no death no future here  
Infinite horror screams of fear  
Your flesh, decayed

Run and hide there's no relief  
Pounding hearts is full of grief  
Burning in Hell
