Music : MT Lyrics : JB
Holy Hell, Death to us
Satan fell, unholy lust
Devil's Water, Starts to Flood
God is Slaughtered, drink his blood
Our Bonding, trust is at hand
Go we must, to satan's land
Prey for death and cry for life
Reapers breath will breath new life
Satan's child, he is born
And to death, he is sworn
Days of hate and days of pain
Endless term of satan's reign
Endless dreams, in the night
Eternal sleep, Eternal Fright
Defiled Crosses, Oh Black mass
Satan's Reigns, me at last
Solo : LL
All of heaven, all of earth
You'll meet your god
Chained to torment, Chained to pain
Like a dog
Evil Days and evil nights
Are black as death
Hearts of sinners, hearts of stone
Reapers breath
There was blood and there was pain
Ecstasy
Rage of magic, rage of witches
Sorcery
Fell the power, feel the heat
Down below
Kill the people, Kill them dead
Take their soul
Blackened masses, Blackened crosses
Ritual
Cut the heads, cut the throats
Take the fall
