I'm not a type and you know I really want you  
I'm waiting for the doors to close so I can really show  
you  
You're interior is playing with my insides  
And every time I close the door, you watch a suicide

Oh me and elevators, we're going to the go-go  
Me and elevators, we're going to the picture show  
Don't you know I can't love you like a girl  
You all set me up and bring me down

One of these days you're gonna find out  
And the door's closed, we'll be together  
And all these people are gonna find out  
And the door's closed, we'll be together

I'm wasted in the elevator  
I'm wasted in the elevator  
I'm wasted in the elevator  
Don't you know I'm wasted in the elevator?

One of these days you're gonna find out  
And the door's closed, we'll be together  
All these people are gonna find out  
And the door's closed, we'll be together

And one of these days you're gonna find out  
When the door's closed, we'll be together  
And all these people are gonna find out  
When the door's closed, we'll be together

One of these days you're gonna find out  
And the door's closed, we'll be together  
All these people are gonna find out  
And the door's closed, we'll be together

One of these days you're gonna find out  
And the door's closed, we'll be together  
And all these people are gonna find out  
And the door's closed, we'll be together
