Don't brake for animals tonight Got to keep the
passengers safe No help can be found in this part of
the world Don't brake for animals tonight Don't let the
night slow you down Got to get the passengers home
The road is empty, your lights are bright Don't let the
night slow you down B-b-bus plunge (One more cup of
coffee and I'll be alright) The driver says bus plunge
(pop a bennie, another bennie) The driver says bus
plunge, bus plunge Stay to the right of the line Don't
get the passengers scared The curves in the road are
not really there Stay to the right of the line B-b-bus
plunge (One more cup of coffee and I'll be alright) The
driver says bus plunge (pop a bennie, another bennie)
The driver says bus plunge, bus plunge Don't brake for
animals tonight (Never mind the creatures in the road
ahead) The driver says don't brake for animals tonight
(Run the stoplight, run the stoplight) The driver says
don't brake for animals tonight (Don't think about the
lady in the Chevy turning left) The driver says don't
brake for animals tonight (Almost home, you're almost
home) The driver says bus plunge, bus plunge
