First time I saw you
Was in a world far away
You told me that you would never leave me
Look where i'm standing today
We fell in love right a the spot
You told me that you would stay
Till eternity

Your my
Your my forgotten hero
Your my forsaken angel
Your my forgotten hero

Yout told me that you'd be back
in a few years
That you would save me from all of my fears
Where are you now
I waited for you a thousand years
Now i'm drowning till my blood is frozen
My blood is frozen

Your my...
Your my forgotten hero
Your my forgotten hero

I waited for you a thousand years
Now i'm drowning in my tears
My blood is frozen

Everything is frozen
I'm sorry
