"That Song"

I put that record on just to make a sound The rhythm hit
got my movement off the ground The soundtrack of
what i want to be If i want to change the world, it's gotta
start with me. I put the needle on the record and play
that song again And in the end what have we learned?
Are we just faces in the crowd? I died and was reborn
again today Hold fast to myself, make these good
feelings stay We laughed we cried The music shaped
our lives so tell me why our movement's out of time?
Are we so out of line? I put the needle on the record
and play that song again A movement with no leaders
We stand tonight hearts in our hands
