..

Crossed the sky

..

since you turned my world upside  
since you fell for me  
airplanes looping through the sky  
riding in the air  
lovers noting lines of smoke that...

...

I'm falling in to your sea  
found myself with both feet over head  
I'm in deep

lie hard...

...

and felt like butterflies  
since you turned my world inside out  
so silent in your eyes  
another...  
always shining

...

exists under the umbrella of my dreams

I'm falling in to your sea  
found myself with both feet over head  
I'm in deep

I'm falling in to your sea  
found myself with both feet over head  
I'm in deep

I'm in deep

I'm in deep
