"Now & Again"

What just happened
Happened to confuse
Confuse and offend
Offend those who lose
Lose the past
Past the present

That is what
What happened then
Then you see
Now and Again

Live the life
Life of today
Today with a wife
Wife says your gay
Past the now
Now you see
See The future
How it's meant to be

That is what
What happened then
Then you see
Now and Again

It's an Attention seeking shy person
Like a Flashback to the future
You think of unrealistic realisation
Don' forget, remember
Just continue what hasn't yet begun
Happy to predicting the past
You can't think of then just now
Now and again
