"Two Side To Every Coin"

Are you happy, are you depressed?
Are you naked or fully dressed?
The way forward is behind us
Get annoyed but try not to make a fuss
The world is a never ending sphere
If you die you'll dissappear
Are you happy, are you sad?
Are you joking, are you mad?
Tell the truth or lie
No- one knows if you live or die
Do you smile or cry?
Don't ask questions, just ask why
Why cry when you are glad,
Or are you always sad?
Where are we going to?
What have we been through?
Is it good or bad for you?
The number of sides to a coin is two
There are three, everyone knows that
There's the edge that makes it fat
