I'll take your words out of the darkness..
You'll find out who you are
The silver innocence departed
We'll take it all too far
Lift those feelings, disregard them
You're losing it for sure
A chance to finish what we started
...I could be your cure..

I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure

I'll take your words out of the darkness
You find out who you are
The silver innocence departed
We take it all too far
Lift those feelings disregard it
You're losing it for sure
A chance to finish what we started..
...I could be your cure

I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure
I could be your cure
Mmmm... cure

Mmmm... cure
Mmmm... cure
