You can take these pictures and bury them
For they don't explain just what's been done
Did you fake those stories you were telling us
Beautiful fables shone in the sun
The horizon is clouded with all your lies
As the landscape folds out before us

Feed me the emotions I am waiting for Meet me face to face in the mirror I made Let me eyes uncover you and all that's real You crawled into my mind to the back of my fear The horizon is melting into the sky Was the future laid out before us

Now I see
What you were stealing
While I was dreaming
I'm far from heaven
This mess is
What we're receiving
Destroying the feelings
I'm far from heaven

You're the one You're the one

You're the one
You're the one
You're the one
You're the one
You're the one
You're the one
You're the one
I've been hurting for

Now I see
What you were stealing
While I was dreaming
I'm far from heaven
This mess is
What we're receiving
Destroying the feelings
I'm far from heaven
