"Spinning"

Visit "[Spinning](#)" on MotoLyrics.com

Let's go around make it feel like we're spinning
Let's go around make it feel like we're spinning
Away from the light coming out of the ceiling
Into the sea at the bottom of this town
Let's go around make it feel like we're spinning
Let's go around make it feel like we're spinning
Away from the light coming out of the ceiling
Into the sea at the bottom of this town

We come together through this
We come together through this
We come together through this
We come together through this

I'm never coming down
It feels just like I'm floating
I'm never coming down
Spinning through the sound
I'm never coming down
It feels just like I'm floating
I'm never coming down
Spinning through the sound

Let's go around make it feel like we're spinning
Let's go around make it feel like we're spinning
Away from the light coming out of the ceiling
Into the sea at the bottom of this town
Let's go around make it feel like we're spinning
Let's go around make it feel like we're spinning
Away from the light coming out of the ceiling
Into the sea at the bottom of this town

We come together through this
We come together through this
We come together through this
We come together through this
