I try to force my muscles
But I can't make them work
It breeds the tension
That only makes it worse
Rip out the tendons
From under my skin
I need you now
But I don't know where to begin

I live like a stranger
Now I'm one of them
An emprisoned stranger
Locked under your spell

Courage come near
I stand unstable
Drifting off the tracks I made

I remember a dream
Where I was here before
But a drape of grey
Is hanging over the door
Now as you stand before me
I push you out of my reach
I'm so frightened
Where I stand behind a shield

I live like a stranger
I float with all of them
Emprisoned strangers
Leading me through hell

Courage come near
I stand unstable
Drifting off the tracks I made
Would you banish this fear
I stand unstable
Would you pull me up
So I can breathe
I can breathe

I'm trapped behind a blockage in my brain
It's reaching out but my heart will take the strain
Just wanna reach out and touch you
But I'm a fool
I'm a fool
I'm a fool

Courage come near
I stand unstable
Drifting off the tracks I made
Would you banish this fear
I stand unstable
Would you pull me up
So I can breathe
I can breathe

This fantasy is unstable
This fantasy is unstable
