(M. Hathcock)

Time

So short so fading

Yet from the start

You had my heart

A genuinely new emotion

began a song in my soul

Something chimed in heaven

And a voice in my heart proclaimed

-

CHORUS:

I would leave all I know

Things to do

Places to go

Just so I could hold you

Kiss you

All I ever want anymore is

to start a journey of love

with you

-

Despite all the miles

The thought of holding you again

Still brings a smile

And as long as the night gives way to the sun

I promise

to keep our memory

in my heart

forever

-

CHORUS

And while I still exhale,

and my heart still beats

It will beat for you

It's true

And though you are far away

It's like you say

there is a way

Because all you need is love!

CHORUS
