Never found out why you left him
but this answer begs a question.
To blind to see tomorrow, to broke
to beg or borrow.
Young and Stupid
Left wide open, hearts are wasted
lives are broken.

One more point of contention,
I need some intervention
Approaching failing tensions
Betray my short attention - span
the distance, bridge the border, beg forgiveness,
round the corner.

Everytime I look for you - the sun goes down.

And I stumble when this whole thing runs aground.
I left another message
you are never around.
but everytime I look for you - the sun goes down.
Once more.
Will the last one out, please shut the door.

More time apart will give you
a few more months to argue.
Is this to much to live through
It always seems to far to drive
the point home, (send more letters), pray tomorrow -
(ends up better).

Everytime I look for you - the sun goes down.

And I stumble when this whole thing runs aground.
I left another message
you are never around.
but everytime I look for you - the sun goes down.
Once more.
Will the last one out, please shut the door.

I never did do anything that she asked,

I never let what happend, stay in the past
I never did quite understand what she meant.
In spite of everything, in spite of everything..

Everytime I look for you - the sun goes down.

And I stumble when this whole thing runs aground.
I left another message
you are never around.
but everytime I look for you - the sun goes down.
And I stumble when this whole thing runs aground.
I left another message
you are never around.
but everytime I look for you - the sun goes down
