He pauses shaving and he tells himself that he is the
bomb
She has her curlers set, her credit cards are paying the
funds
Hes not that old, Ive been told a strong sexual goal
He goes out every day, she goes every way, oh yeah
And they dont even care at all

Shes open waiting for more
And I know hes only looking to score
And it is way too unhealthy
Often they typically
Been starved for attention before

She smokes a dozen and he doesnt seem to notice the
smell
He took the seat off his own bike because the way that
it felt
He wants to bone, this I know she is ready to blow
They go out every night, his pants are super tight, oh
yeah
And they dont even care at all

Shes open waiting for more
And I know hes only looking to score
And it is way too unhealthy
Often they typically
Been starved for attention before
