It's happened before  
Most likely it will happen again  
Yes  
I don't want to see  
Pathetic acts of self abuse  
It turns me right off today  
Why go that way?  
You had the same as everyone else  
Now  
Why can't you see?  
Your actions don't get sympathy  
Just watch the reactions  
Of the people you know  
It only serves to break them up  
It turns me right off today  
Why go that way?  
You're wasting all your precious time

It's happened before  
You got the same as everyone else  
Now  
You don't need strength  
When you're hypnotized  
You look as though you just can't tell  
I just can't look in your eyes  
All of this has happened before  
It's happened before  
Most likely it will happen again  
Yes  
It's happened before  
Most likely it will happen again  
Yes
