Rolling life's endless highway
Seems there ain't no wrong or right way
We just keep heading towards that distant light
Maybe we're two restless souls
Never sure which way to go
But here we are flying through the night
Well c'mon baby

(Chorus)

Any road can make you happy
Any road can make you blue
Any road is just a bi-way
When you're only passing through
Out there on the horizon
Something waits for us somewhere
When you don't know where you're going
Any road will take you there

Never know what's around the bend
Baby hold on tight here we go again
While the highway behinds us slowly fades to black
This road rolls on forever
We'll find what we're looking for together
So move over close and don't look back
Don't look back girl

(Chorus)

Any road can make you happy
Any road can make you blue
Any road is just a bi-way
When you're only passing through
Out there on the horizon
Something waits for us somewhere
When you don't know where you're going
Any road will take you there

Out there on the horizon
Something waits for us somewhere
When you don't know where you're going
Any road will take you there

Ooooooh any road

Any road will take you there
