I hope to refracture
Maybe I've been decieved
I thought your mind was splintered diolated
And if this situation calls for a quick decision
Could you make the right one

If you become a black whole
Your closing down
Rebel in my chaos
Your closer now

And if this situation calls for an explanation
Invent one
This is the butterfly effect
When eternity movement can have a big impact

Could be time to tell you
All about your guru
Did you know he died of boredom
Over analyzed excitement
His fundled masterbation
Leading to destruction
I hope you had a good one

If you become a black whole
Get closer now
Rebel in the chaos
Get closer now
Cerebal stimulation alternate fornication
Yeah I think we found the big one
This is the butterfly effect
When eternity movement can have a big impact

If you become a black whole
Your closer down
Rebel in my chaos
Your closer now
And if this situation calls for an explanation
Your closer now
Your closer now
Your closer now

Your closer now
Your closer now
Your closer now

If you become a black whole
Your closer down
Rebel in my chaos
Your closer now
And if this situation calls for an explanation
Your closer now
Your closer now
Your closer now
