Well it's just not my way
To make a scene
There's a time and place
For everything
Standing here in this crowded square
I don't care who stops and stares
When it comes to you I have no shame

(Chorus)
Right here, right now
Out on this busy street
With all these people around
I'm down on my knees
Gotta tell you that I love you for eternity
Right here, right now

Well I know that I should control myself
But when I see you I don't see anything else
Cars keep rolling up and down the street
Light turns red and the light turns green
But time stands still when you're with me

(Chorus)
Right here, right now
Out on this busy street
With all these people around
I'm down on my knees
Gotta tell you that I love you for eternity
Right here, right now

I can't wait any longer
I've got to show you how I feel
You're the only thing that matters to me
You're the only thing that's real

(Chorus)
Right here, right now
Out on this busy street
With all these people around
I'm down on my knees
Gotta tell you that I love you for eternity

Right here, right now
Right here, right now...
