Ooh

Iâ„¢m the kinda man

Iâ„¢m the kinda man

Can I ask you why you be with that guy
Who don't satisfy you and give you all that you want?
You should be given carte blanche, oh, baby

And can I tell you this? Everything that you miss
Maybe I would give you lovin with no regrets
'Cause that's the kinda man that I am, oh

See I believe in us, you should believe in me
I'll go that extra mile just to make you see

I'll give you anything, I'll be your everything
I'll be honest and I'll be true
That's what I'll do, baby, that's what I'll do

Sealed with a gentle kiss and a soft caress
I'll break any woman in distress
'Cause that's what I'll do, baby, 'cause that's what
I'll do

Shouldn't be this way, should never hear you say
There aint no real men like it was back in the days"
Maybe that's the way I was raised, oh, baby

I'm talkin 'bout chivalry and giving you the best of
me
Taking care of my family, giving you everything you
desire
Even if two jobs it requires

See I believe in us, you should believe in me
I'll go that extra mile just to make you see

When you're feelin down and you want a smile
I can make the sun shine blue
That's what I'll do, baby, that's what I'll do

You say you worked all day and had no time to play
I would take the whole load off from you, baby
'Cause that's what I'll do, baby, that's what I'll do, I'll
do it, baby

I'll always be there, I'll show you that I care, night or
day, baby
Ooh, into spring and down to fall, I'll give you my all
and everything

And anything, I'll be your everything
I'll be honest I'll be true
'Cause that's what I'll do, baby, that's what I'll do, oh

With a gentle kiss and a soft caress
I'll break any woman, any woman in distress
'Cause that's what I'll do, baby, I swear that's
what I'll do
