(I gotta cover my ride, ride hard time, take it) x2

Love the way my heart is racing
Gotta keep my concentration
My reckless side is waking
With every step I'm taking

I know this feeling to well
When they open up the gates of hell

I gotta cover my ride
Ride hard time take it take it
Live it hard kick it right outta that gate
dig it in dig it in

Gotta make it eight seconds eight seconds
Yeah gotta make it eight make it eight
Make it eight make it eight
(cover my ride, ride hard time)
Make it eight make it eight
(cover my ride, ride hard time)

Feel the walls close in around me
Feel the leather wrapped all around me
Feel the pressure feel my heart poundin'
Adrenaline rush till I am drowin'

Yeah I just clear my mind
Put one hand up towards the sky

I gotta cover my ride
Ride hard time take it take it
Live it hard kick it right outta that gate
dig it in dig it in

Gotta make it eight seconds eight seconds
Yeah gotta make it eight make it eight
Something 'bout the crowd getting loud
Hear my heart, heart, hammer, hammer

ice running over my face
dig it in dig it in

Gotta make it eight seconds eight seconds
Yeah gotta make it eight make it eight

(I gotta cover my ride, ride hard time, take it!.)

I gotta cover my ride
