Hang on to tomorrow  
Because tonight the stars revolt  
Do you believe?  
And will you learn to scream like me

Let's go  
There's nothing to it when stars revolt  
They're only doing what they're told

What's the mystery?  
The lights of death and fame shine on  
Invaders from inside  
Will easily replace, you now

Let's go  
There's nothing to it when stars revolt  
They're only doing what they're told

Hang on tomorrow  
Because tonight the stars  
Target earth for me  
Because tonight the stars

Sing your favorite song  
Because tonight the stars  
Show the way to die  
Because tonight the stars revolt

There's nothing to it when stars revolt  
They're only doing what they're told

There's nothing to it when stars revolt  
They're only doing what they're told
