"Watch The Sky For Me"

Rest assured this night
That my time here has not being easy
And what you have just heard was not fiction
Although in many a desperate moment
I know certainly wished at them
It's over for now, it seems
Or atleast until yesterday begins again
Tomorrow, tomorrow, tomorrow

Watch the sky for me watch the night
I'll be there for you in starlight, right
As your feet touch the ground
I'll be flowing along watch the sky for me tonight

Just as every moment leads you to the past
Just as everything has gone
I'm the one you need to know that there is someone
else
Just as this is now, goodbye

Watch the sky for me watch the night
'Cause I'll be there for you in starlight
As your feet, they touch the ground
I'll be up floating along, watch the sky for me tonight

Yeah, goodnight
