"Never Knew Love"

Visit "[Never Knew Love](#)" on MotoLyrics.com

I never knew love could shine thru
It's not because I never knew love
And I never knew love could break thru
It's not because I never was loved

Sing me a love song
So I can sing along
That's what she told me
And then she was gone

And I never knew love
Could feel so sad
Could be so demanding
Could be so bad

And I never knew love
Could feel this way
Like it was always arriving
Like it was here to stay

Oh..

And I never knew love could shine thru
