She's an angel, running all night through the badlands  
Trying to find her way home  
Hiding her eyes from the sandman  
Till morning breaks through she's alone  
Searching the dark like a radar  
Trying so hard to believe  
Avoiding the glare of the hangman  
She reaches for someone to hold

[Chorus I:]

If she only knew, I'll be right there with her forever  
How can I explain the feelings that I know are true?

She's in danger, hearing her voice in the silence  
Trying to find a way through  
Feeling the eyes of a stranger  
Burning so deep in her soul  
Look at her now she's surrounded  
Searching so hard for the light  
Memories of heartbreak, confusion  
I won't let her out of my sight

[Chorus I]

[Chorus II:]

Hold me now and stay forever  
Till the sky comes crashing down  
Save me now, I can't remember  
If you're only in my dreams

[Solo / Interlude]
