Fight for, fight for, fight for me!
would you? would you?

If I was down, would you pick me up?
You must fear this low, would you lift me up?
Nowhere to go, I was out there dealing narcotics
Survival could be neurotic
This women could be erratic
Trying to take you, I feel.. in
All the shit you worked so hard on,
Little whip you caught from..
That got you to that studio
That want you to let your future go
At the crossroads stuck, we don't give a fuck
But in the end still take two to know
Gotta live it, get it, going, gone
Dreams are real, keep holding on!
Keep holding on, show no weakness, only strong
Cause they want you dead, but me I'm breathing
Hennessy chasing purple Cush, now I'm afraid of
dreaming
I've been grinded since... like I'm a...
These niggas salty, my taste ..out a forward
You was no one, I was local
Now I'm on it, you're still no one
Gotta fight for what you love
And our love bleed through my vocals!

Chorus:

I know that's all I see
You're talking devil
Like the time you said "fight for me!"
Cause I'm in trouble!
I know that's all I see
You're talking devil, you're talking devil
Like the time you said "fight for me!"
Cause I'm in trouble!

When you're in trouble it feels like nobody loves you
Seems like your people hate you,
Hate you cause people love you

Won't die for you, let alone niggas won't fight for you
You got them niggas gonna cry for you
Shit them niggas, ain't right as you
Get you another clique, my fucking circle real
Just had to tighten up, they didn't fit the bill
Man, this is music, you gotta show improvement or
Get left behind with them... and losers
..stay broke, but I moved back
From Hollywood with them new raps
New team, few tracks,
made the tape one still classic
Faded dreams my illmatic
Niggas thought we all seem tragic
People that I once knew, far gone and...
I strive to be the person that those people wished they
were
The good and evil on your shoulders always gonna
interfere
The only thing you got in this world is your...
You're trying to get that from me?
Nigga, gotta kill me first!

Chorus:

I know that's all I see
You're talking devil
Like the time you said "fight for me!"
Cause I'm in trouble!
I know that's all I see
You're talking devil, you're talking devil
Like the time you said "fight for me!"
Cause I'm in trouble!
