You are the ... never mind the competition
With a hair like that ou gotta let me hit it
Baby and i am gonna do my thing forget all the
fronting baby
I just wanna get it in
Let's make a movie starting with you and me
In the back of the club in the back of the chevy
Babe i am gonna hold it down
You know i am .. boys don't play around
Making love to the morning don't worry about a thing
no worries
Your secret is safe with me .. all alone
No one it's gonna know
We getting dirty
Don't care who watch it
Up in the VIP love the way you touch me
.. keep me going now i am tlaking dirty
She is ready for love i am ready for more
Music popping she is .. like a liquor store
Security tripping she is wispering in my ear
Boy you drive me crazy
Making love to the morning don't worry about a thing
no worries
Your secret is safe with me .. all alone
No one it's gonna know

Thanks to feel
